

Charles Abi Chahine.

ARCHITECT · COMPUTATIONAL DESIGNER

design, computation, and the work of getting it built.

EDUCATION

- 2025** | **Master in Advanced Computation for Architecture & Design (MaCAD)** IAAC, BARCELONA
- 2026** MaCAD 2026 Award for Sensi. Worked in generative geometry, machine learning, and BIM automation.
- **Sensi**, a copilot that reads a floor plan and scores how each room will feel across six coupled senses. Team of four.
 - **lEgoarCh**, a pipeline turning a generated image into a LEGO set proven buildable against the real parts catalogue.
 - **The Huddle**, a wind-adaptive research hub and expedition basecamp in Punta Arenas, Chile. Team of four.
- 2018** | **Bachelor of Architecture (NASAD & NAAB accredited)** LEBANESE AMERICAN UNIVERSITY, BYBLOS
- 2023** Dean's Distinction List, 3.7/4.0. Honor scholarship every consecutive term.
- **Anfeh**, final-year thesis: an urban re-imagination of a coastal town in North Lebanon, from its salt ponds, fishing and olive terraces.
- 2022** **Bachelor of Architecture, study abroad** KENT STATE UNIVERSITY, OHIO
- Dean's Distinction List, 3.8/4.0.

EXPERIENCE

- 2024** | **Design Technology Architect, Dynamic Solution Co.** KUWAIT
- Parametric geometry for exhibition stands and stage sets, driven in Rhino and Grasshopper.
 - Own the generative AI workflow, from first prompt to the call on what actually ships.
 - Build web and VR prototypes for clients, shaped around the visitor and detailed to come apart.
 - Pitch concepts to sports, F&B and automotive brands. Team working across disciplines.
- 2023** | **Design Architect, SOMA** BEIRUT / DUBAI
- Took Saria at Dubai Maritime City from pre-concept to design development: parametric facade iterations in Rhino and Grasshopper, then the BIM model for delivery.
 - Produced design studies and BIM models for Verve at City Walk, and massing through to masterplan documentation for District O and Enara at Business Bay.
- 2023** **BIM Modeler, BIM International** BEIRUT
- Delivered a LOD 300 BIM model for the Norman's Cay villas in the Bahamas, coordinating with structural engineers and interior designers. Modelled parametric families, furniture and shop drawings to specification.
- 2022** | **Design Architect, Self-employed** HYBRID
- Rings of Mars: Ring 4000 for Marsception, Top 50 of the Volume Zero competition, with Emilie El Chidiac. AI-driven workflows, Rhino and V-Ray.
- 2022** **Architectural Intern, Jemma Chidiac Architects** BEIRUT
- Took the Moujassam Watan competition entry in Khobar from concept to a fully visualised proposal.
 - Wrote the shortlisted technical report for the Abdullatif Al Fozan Award for Mosque Architecture.

SKILLS

DESIGN & COMPUTATION	Rhinoceros 3D · Grasshopper · Kangaroo · Wasp · Python · Rhino Compute
BIM & DELIVERY	Revit · Rhino.Inside · Speckle · Parametric families · Adaptive components
AI & DATA	LLM agents (LangGraph) · Generative pipelines (ComfyUI, FLUX) · scikit-learn, XGBoost
WEB & APPS	React · Three.js · FastAPI · Docker
VISUALISATION	V-Ray · D5 Render · Enscape · Adobe Suite
LANGUAGES	Arabic (native) · English (advanced) · French (advanced)

AWARDS

- 2026** MaCAD 2026 Award for Sensi.
- 2026** lEgoarCh and The Huddle selected for the IAAC exhibition.
- 2025** IAAC Global Summer School, Circular Construction: Shifting Value, Barcelona.
- 2024** Volume Zero Marsception, Top 50: Rings of Mars, Ring 4000, with Emilie El Chidiac.
